

Stressless®

The Comfort Collection

2024

Lean back

... your body and mind will thank you

Did you know that something as simple as leaning back can make a huge difference to your wellbeing? Your muscles relax, your heart rate drops, and you sleep better. Plus, your creativity and efficiency increase, and your mind gets recharged. That's why it's important to take regular breaks – even if you're always on the go. And that's where we come in.

At Stressless®, we've combined decades of comfort innovations to create the ultimate relaxation experience. Our Comfort Formula is a set of unique functions designed to recharge you while also showcasing our quality and craftsmanship.

This year, we're introducing new furniture with classic designs and modern, sleek visuals. Inspired by nature, our upholstery and finishes feature earthy tones like brown, blue, grey, and green. Our designs continue to be created in our factory in Sykkylven, Norway, surrounded by the tranquil fjord landscape. As always, our mission is to create the most comfortable seating experience possible. So lean back, relax, and join us for a tour through our latest products and everlasting classics.

Stressless® Reno (M) Classic with footstool
Paloma Chocolate/Wenge

The Comfort formula 8-15

After taking a seat in Stressless® furniture, you may find yourself pondering: What makes it so much more comfortable? The main reason is the level of attention it pays to how your body works, from top to toe, through patented comfort technologies.

Materials 112-115

Stressless® materials are carefully selected for their durability, comfort and sustainability, including environmentally friendly textiles and top-quality leather that provide both comfort and longevity.

Designing for the future

The Stressless® design is a unique selling point in a market where aesthetics normally plays a secondary role. The recognisable look is true to the Nordic design tradition and is based on well-thought-out combinations of high-quality materials for durable products.

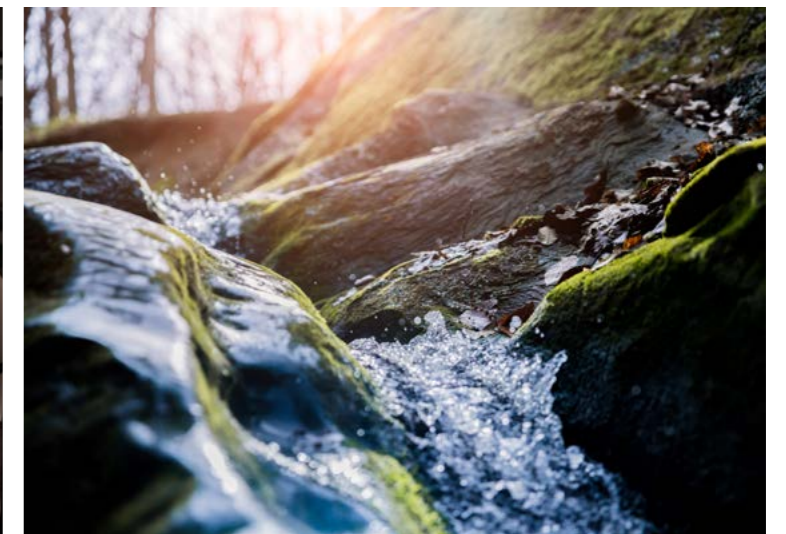

Circular design

Ekornes aims to meet future demands through designing for easy disassembly, making it possible to replace components for repair, recycling or reuse. We strive to use recyclable materials to the greatest extent possible, in order for them to re-enter the product lifecycle at a later stage.

Quality and comfort that lasts

At Ekornes we make quality products that lasts. Our raw materials are selected with the utmost care and consideration to give the furniture endurance. Choosing a high-quality product extends its lifespan and lowers the environmental impact, making design just as important. With our focus on timeless pieces, we create furniture to last.

Waste free production

An important goal in Ekornes' sustainability strategy is a waste free production. By re-introducing by-products from own products into existing or new circular models, we are able to save virgin material and make waste a valuable resource in our factories.

The comfort formula

Just like a human being, a Stressless® recliner is a fine tuned instrument. It loves movement. It strives for the optimal balance between softness and support.

That's why recharging in a Stressless® recliner is different – it speaks the same language as your body. After taking a seat in a Stressless® recliner, you may find yourself pondering: What makes it so much more comfortable? The main reason is the level of attention it pays to how your body works, from head to toe through patented comfort technologies and unique features. .

Some of the secret also lies in the sheer quality of materials and craftsmanship applied in the making of a Stressless® recliner, which makes it a sustainable choice that will potentially last for generations. Add to that the joy that stems from freedom of choice, when you get to pick the design, size, colour and texture of your ideal recliner, and you may have found your answer.

Stressless® Reno (M) Classic with footstool
Paloma Chocolate/Wenge

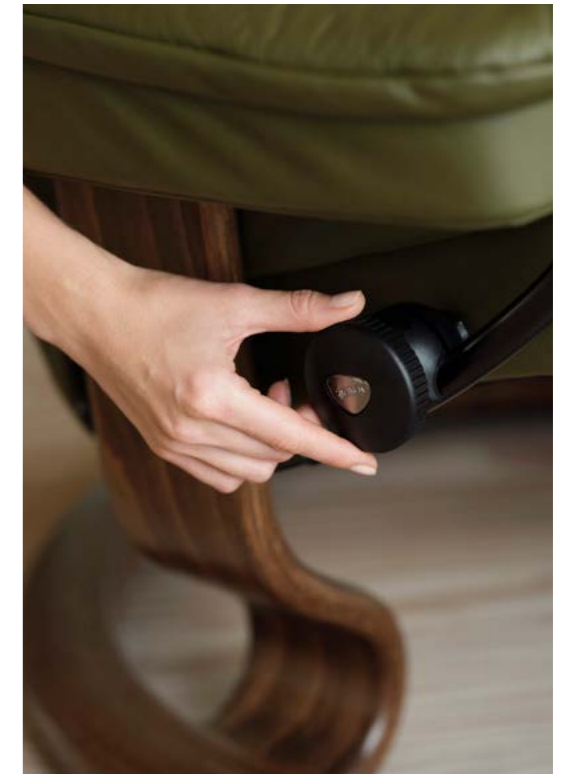

Plus™ and Glide™

Relax and feel your heart rate slowing down. Imagine the ability to relax without the worry of today's stresses hanging over you.

The Plus™-system permits automatic adjustment of the support to your neck and lumbar region, allowing you to read or watch TV even when fully reclined. The Plus™- system features on all Stressless® recliners and non-electric high-back sofa models with individual seat control. You can also easily activate the headrest sleep function allowing you to have a ten-minute power nap or an hour long snooze – the choice is yours.

The Glide™-system is integrated in the Stressless® wheel. Simply turn the wheel to select the most suitable resistance for you and you shall experience a tailored level of comfort every time you sit down.

BalanceAdapt™

Our bodies are designed for movement and variation, not for sitting still. BalanceAdapt™ gives you a unique sensation of perfect balance. The seat angle automatically adjusts to the slightest body movement as the back and seat move together in harmony. The gentle rocking motion increases your comfort in all positions. In our recliners, this system allows you to lie back even further.

All our Stressless® recliners with Cross, Signature and Star bases come with BalanceAdapt™-system. The recliner also includes the Plus™- and Glide™-system providing optimum support for the neck and lumbar region allowing you to really unwind.

And why not bring the ultimate support and comfort to even more seats in the house? The BalanceAdapt™-system is also available in the Stressless® sofa model Stressless® Stella.

Balance&Glide™

When it comes to dining, comfort is key. That's why Stressless® has created the Balance&Glide™-system for our dining chairs. This innovative technology allows the seat and backrest to adjust to your body's movements, without the hassle of operating buttons or levers. So whether you're enjoying a family dinner or hosting a party, Stressless® dining chairs will keep you comfortable and relaxed from the first course to the last.

BALANCE&GLIDE™ SYSTEM

Stressless® Recliners

If you have ever owned a truly comfortable recliner, you know that it quickly becomes the most popular piece of furniture in the home. This is where you retreat after a long day at work, or spend that deservedly lazy morning. It is where you read, watch tv, chat and even put in some home office hours. With that in mind, it is good to know that a Stressless® recliner adapts to your body and moves with you, taking care of your body's need for natural motion.

The best just got even better

In 2022, some of our trusted employees were challenged: how can we make the world-renowned comfort reach new heights?

The difference is almost impossible to tell from the outside unless you see the old and the new models side by side, but some of our models have gone through a comfort upgrade. Most significantly, extra padding and foam have been added in strategic places to heighten the comfort to new levels. The back now gives you extra support, while the seat has been reshaped with ergonomics in mind. When seated, you will most definitely understand: One of the world's most comfortable sitting experiences has taken a new leap towards perfection.

Plus™-system. Whether you are sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

CLASSIC SERIES

Right size matters

We all come in different shapes and sizes, and our tastes in interior design differ. That's why most of our Stressless® recliners are available in a variety of dimensions, from wider and slightly taller to smaller and slimmer. A large selection of bases with different designs and functionality allows you to personalise your recliner further. We have included a full overview of the many possibilities on the last pages of this catalogue.

Stressless® Erik (M) Cross with footstool
Paloma Light Grey/Walnut/Polished Metal

A smarter footstool

A Stressless® free-standing footstool is the perfect partner for our chairs and sofas. Why? Well, this isn't your traditional, static ottoman. All Stressless® furniture is based on research into human anatomy, and we found that when you lean back in a recliner, your legs move forwards and down, for a more relaxed angle of the ankle. Most traditional, flat footstools do not support this sitting position.

We have given Stressless® footstools a built-in sliding function that automatically follows the movement of your legs, giving you the freedom to move whilst staying completely supported and making the world's most comfortable recliner even better. What's more, in a locked position our footstools can be used as an extra seat.

Plus™-system. Whether you are sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Stressless® Sunrise (M) Classic with footstool
Batick Platinum Grey/Wenge

Stressless® Swing Table in Oak.
The table can be attached to all
Stressless® recliners with the Classic base.

A companion for work and relaxation

Whether you're working hard or hardly working, we have the perfect partner for your Stressless® seating. The Stressless® Swing table, USB A and Ellipse tables are a great addition to your living space. These tables not only provide a sturdy surface for your laptop or drink, but they also look great and complement any decor. Plus, all of our tables are made with the same high-quality craftsmanship and attention to detail as our seating, ensuring that they're just as durable and long-lasting.

Stressless® Ellipse Table in Black.
The table is height adjustable.

Stressless® USB A Table in Wenge. The table is height adjustable and has the possibility of connecting a charger.

URBAN SERIES

Timeout in the big city

Stylish, urban and classy, this series has found its way into a wealth of modern homes. That's not based on looks alone: The Stressless® London, Stressless® Tokyo and Stressless® Rome recliners can be tailored to fit both your body and your taste in interior design.

Stressless® Rome Cross Low Back

URBAN SERIES

3 different back options
Low, Adjustable and High back

We've got your back

Inspired by metropolitan living, The Stressless® Tokyo, Rome, and London – offer a nod to mid century design and urban architecture.

They also unite in offering three different back options – low back, high back and an adjustable headrest.

The high back models offer all the well-known Stressless® comfort features for personal relaxation, while the low back versions invite you to gather with friends and family. Height adjustable designs allow you to increase the length of the back by up to 10 cm, offering true personal comfort contained within iconic good looks.

Plus™-system. Whether you are sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

URBAN SERIES

All about the base

Have you noticed how the base can transform the look of a recliner? The models in our Urban series can be paired with either the Star base or the Cross base. If you want to pair versatility with style, go for the Home Office base. All bases offer you the comfortable functionalities of a true Stressless® recliner.

Stressless® Rome Cross Adjustable Headrest with footstool
Paloma Black/Matte Black

A redefined sitting experience

Stressless® Rome is the result of comprehensive studies that analysed the needs and desires of consumers in design, function, aesthetics, and materials. Inspired by anatomical form and distinguished by the backrest that wraps around your body, the unique shape redefines comfort and aligns with modern interior design.

BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

It's time to take our Comfort Test™

The ultimate sensation of comfort is individual and personal to everyone. Because we all have different needs, we encourage you to take our Stressless® Comfort Test™ to find the size and model that fits you best. We guarantee this will be time well spent. After all, a Stressless® recliner is an investment you will enjoy for many years to come.

- Does the recliner feel stable and safe?
- Are the height and width of the chair right for you?
- Do you find it easy to adjust the chair to your preferences?
- Does the chair provide good lumbar support in all positions?
- Is your head supported comfortably as you recline to read or watch TV?
- Can you adjust the headrest so that it lays flat when you recline?
- Do you have the feeling that the seat back reclines sufficiently?
- Do you have a comfortable and relaxing angle on the leg support?
- Can you position the leg rest according to your preferences?
- Are you aware of how your entire body relaxes?

Stressless® Wing (M) Classic with footstool
Paloma Taupe/Wenge

Power under the hood

What could possibly make the ultimate recliner even more pleasing? Motorised adjustments controlled by a discreet panel might be a start. And why not throw in a heated massage? Some Stressless® recliners have just a little more power under the hood.

Stressless® Scott Paloma Almond
Sirius base Brushed Metal

Extra comfort.
Add heating combined with a light massage for intense relaxation.

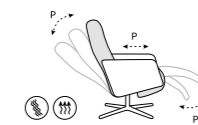

Comfort at your fingertips

Sleek and sophisticated, Stressless® Scott is a modern take on the recliner built for the discerning homeowner. Note the double stitching at the seams, and the soft silhouette which will blend into any home decor. The integrated pillow in the headrest makes it easy to adjust head and neck support to your preference.

We know how important it is to be able to maintain a consistent interior design through the home. That is why Stressless® Scott comes with a multitude of choices between different bases, quality upholstery and colours. The Sirius aluminum cross base is available in brushed or matte black finish. The laminated round Disc base comes in Black, Natural or Whitewash oak veneer and Walnut veneer.

Stressless® Scott Paloma Almond
Sirius base Brushed Metal

Power. Stressless® Scott and Stressless® Sam come with three motors, all individually operated by a slim and stylish remote control that attaches to the chair armrest by magnet. You can easily adjust the support to your back, legs and head, and the movements for the head support is synchronised with the movements of the backrest. Simply hit the HOME button to move back to an upright position. Take comfort to the next level with the heating and massage option. Chairs without the heating and massage option are available with battery if you prefer to avoid cords.

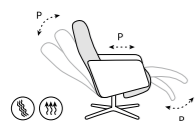

Cherish the moment

An all-out luxury recliner, Stressless® Sam represents a unique meeting point between iconic mid-century modern style, advanced technology and pure comfort. With a generous open design, round soft shape and pared back cushions, Stressless® Sam has an elegant and contemporary outline paired with detailed French stitching at the seams. A curved back and seat provide a comfortable and hugging feeling whilst sitting, and the accentuated shape of the adjustable headrest cushion offers perfect support for the head and neck. The motors will quietly adjust it to your liking. Stressless® Sam is even available with a heating and massage function.

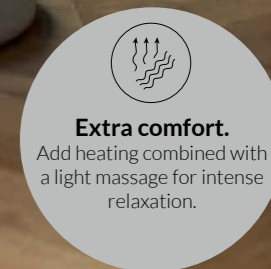

Stressless® Sam Wood adds wooden panels on the armrests for a totally natural Scandinavian look and feel. Three different wood tints are available. Personalise Stressless® Sam and Stressless® Sam Wood with your choice of swivel base and high quality leather or fabric, both available in a wide range of traditional and modern colours.

Stressless® Consul (M) Classic Power
Batick Cream/Oak

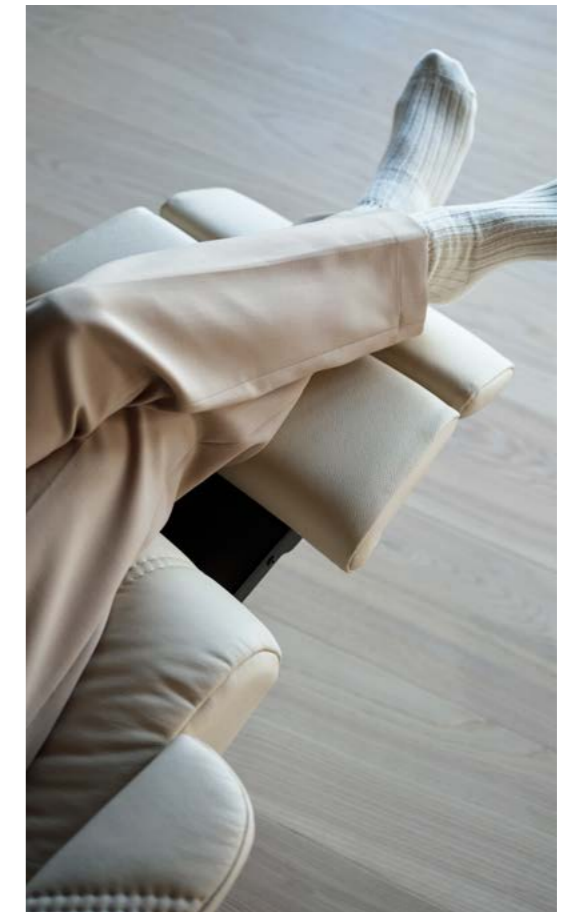

The powernap reinvented

Ever since our first Stressless® recliner hit the market in 1971, the Stressless® brand has been associated with comfort, quality and innovation. Today, we take this commitment one step further and are delighted to offer some of our most iconic recliners with our motorised systems.

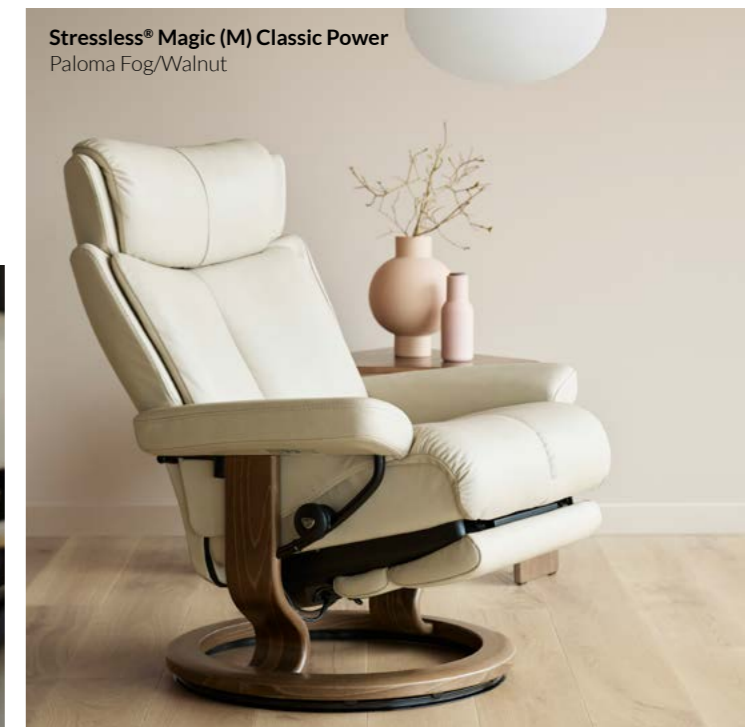

Stressless® Power recliners offer enhanced motorised functionality, with built-in motors operating the back and footrest. They represent a great alternative to a recliner with a separate footstool.

The integrated footrest has a slim design, and is elegantly concealed beneath the seat. You extend it at the push of a button under the armrest. The footrest is designed to follow the natural angle of your feet and can be adapted to different leg lengths, extending longer than most other footrests on the market.

A battery operated version is also available, with a magnetic charger attachment for easy access. See the last pages of the catalogue for a full product overview.

Stressless® Sofa

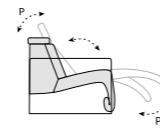

Your interior design has an impact on your sense of well-being, and on the mood of those around you. Whether it be playful, elegant or bold, there is a Stressless® sofa design that fits right into the atmosphere you want to create. In addition, every Stressless® sofa can be customised to your choice of materials, colours and details.

But looks are just the start of your voyage towards the ultimate home comfort. Below the surface, a Stressless® sofa has functionality based on decades of research into the best possible sitting experience. To give you a clue: It involves much more than a comfortable seat. It adapts and moves with you. It's a sofa that feels just as good as it looks.

Stressless® Arion	11, 74-75, 105

Stressless® Wave	76-77, 105
Stressless® Windsor	79, 103

Lie back and relax

Sleek lines and a streamlined silhouette give Stressless® Emily a clean, modern look that signals confidence and style. The contemporary design blends well with any modern interior. The soft cushions ooze with luxury and invite you into the comfort zone of your home. It is one of our Stressless® Power sofas, which means you can easily adjust the seating position with the control panel for perfect relaxation. We offer a range of different designs and modules which makes it easy to configure the perfect sofa for you.

With a light pressure on the right hand side of the seat cushion, **Power** adjusts both the footrest and the headrest. This combination provides superb support and comfort.

Stressless® Emily Wide Arm with LongSeat (L)
Paloma Almond

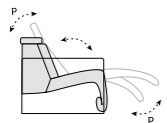

Stressless® Emily Steel C32 with end module
Paloma Dark Henna

The perfect gathering place

Stressless® Emily is a no holds barred luxury sofa, with all the comfort and functions you have come to expect from the Stressless® brand. It has an adjustable headrest on all seat modules. You can lower it for a sleek low-back sofa with perfect back support for sitting, or adjust the angle and height of the headrest for extra support to your head and neck. Put your feet up on the LongSeat module with leg support and adjustable headrest or choose a Power seat to get an adjustable footrest. It is customisable to your every whim.

Stressless® Emily also offers a large choice of high-quality leather and fabrics, and the choice between three versions of the armrests: Emily Steel and Emily Wood have slim armrests with elegant details in steel or wood, while Emily Wide has distinct upholstered armrests with luxuriously large proportions. Stressless® Emily is a modular sofa system. Seat modules, with or without Power, corner, two sizes of LongSeats, center modules or end modules can be combined to create the sofa of your dreams.

With a light pressure on the right hand side of the seat cushion, **Power** adjusts both the footrest and the headrest. This combination provides superb support and comfort.

Indulge in comfort

Stressless® Mary is a truly sumptuous sofa with gentle curves and a generous look that will never go out of style. Its cushioning is extra supple and soft for added indulgence. Individual seat modules can be fitted with motors for effortless adjusting of the back and leg support. The functions are operated from an integrated panel, discreetly concealed on the side of your seat when seated.

Seat modules with or without power can be combined, and you can also add a spacious corner module to your setup. Choose between a classic upholstered armrest or an armrest with wooden details for an elegant touch. Stressless® Mary matches exquisitely with Stressless® Mayfair, one of our best-selling recliner models through the decades. With the same range of leathers, fabrics, and colours available across our entire range of furniture, completing your look has never been easier.

Find your balance

The sofa is where you meet to exchange stories, or to nap in your safe and snug nest. It can be the centrepiece of the party, or the calm spot to relax with your favorite book. Finding the right one is an investment in memories and experiences, and not a task to be taken lightly.

The perfect gathering place adapts to everyone: The Stressless® BalanceAdapt™ system allows the sofa to respond to your movements, adjusting the seat as you shift. Recline, lean forward, lie down or put your feet up. When the occasion calls for just a regular sofa, simply lock the function to stop the seat from moving.

BalanceAdapt™. Subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

Style and substance

Sleek and modern, or soft and inviting? Why not have the best of two worlds? On the outside, the Stressless® Aurora sofa serves up the perfect blend of visual qualities. On the inside, it features the Plus™ and Glide™-systems which add both finesse and comfort. That all adds up to a contemporary look with a unique and timeless Stressless® feel. This sofa is available as a high back with individually adjustable seats. Choose between steel or wooden legs in three different heights.

Plus™ System. Whether you are sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

A wave of pleasantness

Stressless® Wave brings a modern approach to a timeless design, and can be tailored to fit into urban environments as well as traditional surroundings. Like other Stressless® sofas, it adjusts to your body as soon as you take a seat. Our built-in Plus™ and Glide™-systems support both your head and lower back, whether you sit up or lie down. It's available in a three seat, two seat and one seat setup, and can also be combined with the Medium Corner or Sector for Home Cinema setups. Stressless® Wave also comes with a choice of high or low back and a selection of leg designs in wood or metal.

Plus™-system. Whether you are sitting or lying down, our unique Plus™-system provides optimal comfort and support for the lower back and head, in all positions. The lumbar support automatically adjusts as you recline. You can also choose between an active or rest position for the neck.

Lasting comfort

Timeless elegance meets modern functions: The Stressless® Windsor and Stressless® Buckingham are sofas that never go out of style, with their combination of soft cushions and beautiful wood.

Stressless® Buckingham is available with high or low back and Stressless® Windsor is available with high back. They also have the Plus™-system, which means that the sofa follows your movements and provides good support in all sitting positions. Pure comfort. Pure class.

A match made in heaven

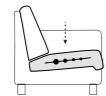

Stressless® Fiona has a fresh and clean design, with neat proportions. Its beautiful simple lines will cater to many tastes, and the sloping back gives it a slight progressive look. Traditional upholstered arm, elegant wood details or a modern look with steel? The choice is yours! To complete the seating area, we suggest you combine the sofas with a Stressless® recliner of your choice. The large selection of upholstery choices, wood finishes or steel details allows you to put together a lounge that matches your interior design.

Wooden arm option.

Metal arm option.

Upholstered arm option.

When you sit down in a fixed back sofa with **ComfortZones™** the back part of the seat cushion will give in more than the front part of the seat cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Stressless®

Dining

Have you ever found yourself wishing you could spend more time together as a family? The dining area is often the only meeting point in a busy schedule. It is also the place to enjoy the company of friends, old and new. A place to dine, converse and share memories.

One way to make sure the guests flock to the table is through providing the best seating possible. Stressless® dining chairs are expertly designed to work with your body, not against it. The flexible seat and back follow and respond to the movements of your body in a unique way, offering a variety of positions for total comfort. With Stressless® dining chairs you can while away the hours in complete comfort.

Stressless® Bay	88-89, 92, 110

Stressless® Mint	91, 110
Stressless® Vanilla	90, 110

Lean back

... and meet your loved ones

We gave our designers a challenge: Can you bring the unique Stressless® comfort to the table, with chairs that respond to the body's movements? Their answer was the Stressless® dining line of chairs. They automatically adjust the seat and back position without levers or handles. Lean forward, and the chair moves to reduce the pressure under your legs while supporting your back. Lean back, and enjoy the reclining backrest while the seat slides forward, providing a more open and comfortable sitting position.

Balance&Glide. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

Dining with a twist

One of the main keys to a truly comfortable sitting experience is in fact movement. With the D350 base, our dining chairs get a new range of motion. The swivel function has several advantages in addition to its smart, good looks. It makes it easier to get in and out of the chair, and reduces the need to pull the chair away from the table before sitting down or getting up. This feature also helps keep the conversation going, as you can turn the chair to face the person you are talking to. Innovative dining at its best!

A 360 degree swivel is standard on the D350 base, with autoreturn as an option.

Balance&Glide. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

Build a beautiful and stylish home

All Stressless® furniture can be customised with our wide range of materials and finishes. This means that you can get really creative, or stay traditional: Combine different types of furniture and maintain a uniform interior for your home. Choose recliners, sofas, dining chairs and home office chairs in the same covers – or create interesting contrasts with different textures in matching colours.

The Innovators of Comfort™

With the best quality materials, environmentally friendly processes and an uncompromising focus on comfort, our machines and people work together to create furniture that will live with you through a lifetime. When you sit down and appreciate how genuine Stressless® furniture feels, you will know.

Whether you sit up or lie down, the **Plus™-system** provides optimal comfort and support for your head and lumbar region. The sleep function is controlled with a simple hand movement to make your comfortable moments even better.

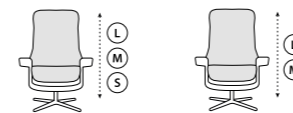

With **BalanceAdapt™**, subtle rocking motions enhance the feeling of total balance. These movements usually make all the difference between a good seat and a fantastic one.

With a light pressure under the armrest, **Power™** adjusts both the footrest and the back angle. This combination provides superb support and comfort.

Power is easily operated by the remote control, the motorised functions offer truly outstanding comfort in all positions, small adjustments can make a big difference. Take comfort to the next level with the built-in heating and massage option.

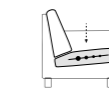

Optimal comfort is also about correct size. Most of our Classic recliners therefore come in small, medium and large, for you to find your perfect fit.

Optimal comfort is also about unique design options. Our Urban models come in 3 different back options, - Low, Adjustable and High Back.

Power. With a light pressure on the outer side of the seat cushion, Power adjusts both the headrest, footrest and the back angle. This combination provides superb support and comfort.

When you sit down in a fixed back sofa with **ComfortZones™** the back part of the seat cushion will give in more than the front part of the seat cushion. As a result of this, the seat cushion will angle slightly, giving you a comfortable position of your legs while seated.

Balance&Glide. Our dining chairs have a flexible seat and back, offering a variety of positions for increased comfort. This comfort enables you to maximise your quality time with friends and family.

10

Put your **Stressless® modular sofa** together exactly the way you want. Regardless of space, with our ingenious flexible modules there's always room for a Stressless®. First find your favourite model and then select your ideal arrangement. A few possible configurations in a variety of our styles are shown below.

Find out more about the many options available for each model at stressless.com

Stressless® Home Cinema

You move more than 300 times during the length of a movie. This might sound exhausting, but don't despair – Stressless® seating is designed to adjust to your every movement. The spacious, soft seats of your Stressless® Home Cinema seating, combined with a Stressless® ottoman, ensure an optimal movie experience.

Regardless of how much space you have available for your home cinema setup, our ingenious flexible modular designs ensure that there's always space for a Stressless® sofa.

Find out more about the many options available at stressless.com

Stressless® Arion A10 / Stressless® Arion A20

Stressless® Wave

The Stressless® Sector (SC) / Sector Arm (SCA) is upholstered in the same way as the sofa and conceals a storage space beneath the top. The Sector / Sector Arm also functions as an armrest, which is why setups with Sector/ Sector Arm tables should be treated as a single, fixed unit.

It's time to create

Your perfect Stressless® home is only complete when you have added your personal taste and your individual needs. After all, it is your home.

That's why our dining chairs, home office chairs, sofas and recliners come in a large range of leather, fabrics – and choices of armrests and bases. Visit your local retailer or explore our endless opportunities at stressless.com.

View with the Stressless @home app

You can also download our Stressless @home app, personalise your favorite piece of our furniture, and actually place it in the living room, kitchen or office at home with the help of your phone or tablet. The app provides you with pictures of all our chairs and sofas and lets you choose your preferred materials, colours and bases. It doesn't get easier:

- Download the application from App Store or Google Play
- The app will automatically download all available Stressless® products at startup
- Choose model and style it at your preference
- Choose "view at home", and see your Stressless® chair in your home through the camera.

TABLES AND OTTOMANS

Stressless® Urban Star (L)
Ø: 90, H:48

The stylish glass table is designed to match Star base models. Select from polished metal or matt black finishes.

Stressless® Urban Star (S)
Ø: 55, H:48

Stressless® Urban Cross (L) Stressless® Urban Cross (S)
Ø: 90, H:48 Ø: 55, H:48

The stylish glass table is designed to match Cross base models. Select from polished metal or matt black finishes.

Stressless® Enigma
Ø: 90, H:44

A stylish glass table with base in polished metal.

Stressless® USB table A
W: 52, H:50-73, D:42

A versatile table with a USB port, this fits all Stressless® chairs perfectly. Available in eight wood colours with a black or chrome stem (adjustable).

Stressless® Ellipse table
W: 49, H:48-71, D:38

This flexible, easy-to-move table is ideal, since it keeps everything you need within easy reach while you are in your "comfort zone" (adjustable).

Stressless® Swing table
Ø: 28

This table remains independent of your movements and can be simply swung aside when not in use. Can only be fitted to Classic/Classic Power base recliners.

Stressless® Stella ottoman
W: 90/70, H:44, D: 57

A sleek footstool perfectly designed to match our Stella sofa. Complement with an optional table. Available in 2 sizes.

Stressless® Double Ottoman with Ottoman table
W: 119-154, H:44, D:61

This large ottoman offers ample space to put your feet up, while the storage space conceals a tabletop that can be placed on the ottoman when needed.

Stressless® Modern Ottoman

W: 60, H: 44, D: 60 W: 51, H: 44, D: 40

The ottoman is ingenious in at least two ways. Firstly, it features a built-in tilt system, which ensures that the angle of the ottoman is adjusted to your sitting position. And secondly, it has room for all your extras under its removable top. Available in two sizes.

Stressless® base colours

Ekornes uses rotary cut beech veneer in all its moulded furniture components. Lightly steamed beech is used for solid wood components. The hardness of the wood makes beech furniture extremely durable, and the timber we use is a renewable resource. Beech is a natural material and variations in its pattern, colour and texture make each piece of furniture unique. Although beech is used for both solid and moulded components, structural differences may be visible.

Stressless® Sam and Scott

* Matte Black is not available on Disc base

Dining (D300, D350, D400, and Home Office)

* Satin Silver is not available on Home Office

Stressless® Leather and Fabric Care kits

Ekornes offers its own leather and fabric (including microfibre) care kits to match the high quality of our furniture.

The Stressless® Leather Care kit (medium/large) contains a leather cleaner and protection cream. Stressless® Leather Care Wipes are also available. For maintenance, and to make the leather more resistant to stains, the protective cream should be applied to all your recliner's leather surfaces when new. We recommend that you clean the leather with Stressless® leather cleaner at least once every six months to keep your leather looking its best, removing stains regularly and ensuring long leather life. Always apply the protective cream after cleaning.

The Stressless® Fabric Care kit contains a fabric cleaner, a stain remover and an Ox cleaner. This kit contains everything you need to clean your furniture in minutes without removing the fabric cover. For resistant stains, use the fabric cleaner together with the stain remover and Ox cleaner.

These are the only cleaning products recommended by Stressless®. Stressless® accepts no responsibility if cleaning products other than those recommended by Ekornes are used and cause damage to the leather.

All great choices, naturally

Being one of the world's largest premium furniture manufacturers comes with responsibility. All our leather is manufactured in keeping with current laws and guidelines for animal welfare, health, safety and the environment. Here, we work alongside recognised international institutions to ensure that we are always up-to-date.

Our inspectors also take part in the leather selection process from our chosen tanneries. We maintain the highest of standards, so that you always make a great choice – regardless of texture, softness, colour and how you want the leather to look and feel. Today and tomorrow. For this, we offer many types of leather – from the most exclusive and delicate to the more robust quality.

BATICK is a corrected, pigment improved and grain embossed upholstery leather, which has had most of its natural marks removed. Batick may have a two-tone colour effect to liven up the surface. Batick is resistant to fading, although changes in colour will occur over time due to use and exposure to light. A protective layer of lacquer simplifies cleaning. Simple cleaning, excellent utilisation properties and a favourable price make Batick a good choice.

CORI is a corrected, pigment improved and grain embossed upholstery leather. Cori has a substantial body and a distinct pebbled grain. Most of its natural marks are removed. Cori has a tip-shine which adds depth and character to the surface. Some colours have two-tone/ tone on tone-effect. A protective layer of lacquer simplifies cleaning. Cori is a wise choice if you want leather with excellent utilisation properties, a robust structure and an exclusive look.

PALOMA is a slightly corrected leather with a combination of dyes and pigments that smooths down some of the structure (the grain pattern) of the leather. The grain structure in Paloma may however vary a little at some parts of the furniture and also minor colour nuances may appear in the leather. Natural marks, scars and insect bites are natural and will appear in Paloma. A thin coat of lacquer gives Paloma some protection and simplifies cleaning, but Paloma does not have the same heavy duty quality and protection as Batick and Cori. Due to its soft, natural and comfortable expression, Paloma is a very popular choice.

NOBLESSE is the most exclusive leather quality offered by Ekornes. It is a full grain semi-aniline, which means that it is dyed all the way through and has only a thin protective topcoat. This allows the leather to keep the natural softness and lustre that characterises a first-class furniture leather. A natural material like Noblesse retains its original grain and structure. Minor colour nuances and skin blemishes may also occur. Such individual details could lead to slight variations in different parts of the furniture cover. Although the topcoat provides a measure of protection, Noblesse is the most delicate of the leather qualities that Ekornes uses. It absorbs moisture easily, and is more vulnerable to wear and tear, heat, sunlight, spills and perspiration. Regular maintenance is important to keep its attractive appearance.

Inspired by nature

At Stressless® we are proud caretakers of the beautiful scenery that surrounds the factory in Norway. We wholeheartedly believe the best choice you can make is to furnish your home with high quality furniture that will last a lifetime. In addition to this, we are delighted to offer products that are made with extra focus on the environment and sustainability – both in our choice of materials and in our production.

The Stressless® fabric collection is inspired by nature – offering you the possibility of creating a calm breathing space in the comfort of your own home. We have a large selection of qualities and colours to choose from.

We are uncompromising when it comes to fabric quality, and we cooperate with suppliers that manufacture in accordance with strict quality and environmental requirements. If correctly maintained, the fabrics we have selected will help give the furniture a long life. All our upholstery fabrics meet and exceeds the requirements of mobelfakta.no for Hard Wear. To meet Hard Wear requirements, the fabric must pass international tests for durability, light fastness, pilling resistance, fire safety and colour fastness.

Choose from our wide selection of colours to match your interior. Please note that colour changes will occur over time as a result of use and the effects of exposure to light. You should always protect your furniture from direct sunlight. To prolong the life and appearance of your recliner, sofa or dining chair, the fabric upholstery should be regularly vacuumed and all stains and spills should be removed as soon as possible.

CALIDO. Sustainable, soft wool with an exclusive look. Calido is a wool fabric that feels comfortable and soft next to your skin. The fabric is available in a diverse and exclusive colour palette. Wool is a natural fibre that breathes, making it feel warm when it is cold and cool when it is hot. 80% wool, 20% polyamide.

DAISY. Exceptionally soft fabric, made from recycled plastic. Daisy is an exceptionally soft and comfortable fabric made from recycled bottles. The silky-soft fiber is woven with a light structure and a soft pile. The harmonious colour palette has a nice sheen and play created by a weave with different nuances and structure. Daisy is a good choice if you are looking for a sustainable and strong fabric with a soft touch and easy maintenance 100% GRS certified polyester PET.

DINAMICA Comfortable, breathable and easy to clean. Dinamica is a well-known micro fibre-quality fabric, with an appearance that resembles suede leather. It is soft and very comfortable, breathable and non-static. Easy to keep clean and highly wear resistant. 88% polyester, 12% polyurethane.

GRACE. Soft, silky and trendy velour. Grace is a hardwearing fabric made from syntetic fibres. The soft, silky texture provides a fine sheen and an attractive interplay of colours. It has a high wear resistance, long durability and is easy to clean. 92% polyester, 5% cotton, 3% latex.

LINA. Soft, attractive and inviting. The Lina fabric is soft, cosy and inviting. Thanks to its woven contrast colours, the fabric has an exciting look and feel. The elegant colour palette combines beautifully with the Stressless® leather colours. 54% polyester, 30% cotton, 16% viscose.

MAGNOLIA. Classic, soft and silky velvet. Magnolia is a velvet fabric with a light slub effect. It has a soft and silky texture with a nice shine. This creates an interesting play in the natural earth tones of the colour palette. Magnolia is a classic, durable fabric quality that is easy to clean. 100 % polyester.

PEONY. Peony is a classic wool fabric available in soft neutral colours. The small herringbone pattern provides a classic yet modern look, creating a warm atmosphere with a sense of quality and timeless design. Wool is a natural fibre that breathes, making it feel warm when it is cold and cool when it is hot. The wool yarn also makes the fabric durable. 70 % Wool, 30 % Viscose
